PetroNeft Resources plc

Chairman's Statement

Dear Shareholder,

I am pleased to report on the activities of the Group for the six months to 30 June 2014 and provide an update on recent progress.

Production and Sales

Production in the six months to 30 June 2014 averaged 2,163 bopd, a 12% decrease compared to the same period in 2013 (2,464 bopd) The decrease was as a result of natural decline and the fact that no new production wells have been drilled since February 2013. We sold 391,379 barrels of oil in the six months to 30 June 2014 (H1 2013: 438,350 bbls) and achieved an average oil price of \$44.79 (H1 2013: \$42.48).

Licence 61 Farmout

On 17 April 2014 the Company signed a binding contract with Oil India Limited (OIL) to farmout a 50% non-operated interest in Licence 61. Following shareholder approval in May 2014 and the granting of Russian Regulatory Approval on 30 June 2014 the transaction was completed on 3 July 2014. All debt due to Macquarie and Arawak was subsequently repaid from the initial proceeds of US\$35 million and the Company is now debt-free.

Under the terms of the Licence 61 Farmout, OIL acquired a 50% non-operated interest in Licence 61 in return for a total Investment of up to US\$ 85 million consisting of:

- US\$35 million upfront cash payment, enabling PetroNeft to repay in full its debt due to Macquarie and Arawak,
- US\$45 million of committed exploration and development expenditure on Licence 61 and
- US\$5 million performance bonus, contingent upon average production from the Sibkrayevskoye Field reaching 7,500 bopd within the next 5 years.

Since completion in July 2014, the Joint Venture Working Group made up of OIL and PetroNeft has been formally established and the major work programme and budget items for 2014 and 2015 agreed. Under the terms of the Licence 61 Farmout Agreement, OIL will fund the following work programme from the US\$45 million of committed exploration and development expenditures on Licence 61.

Tungolskoye No. 5 delineation well

This well, the first horizontal well to be drilled on Licence 61, was spudded at the end of August 2014. The well will include a vertical pilot hole followed by a horizontal segment in the reservoir. It is planned to core, test and log the J-1 reservoir in the vertical hole before drilling and testing the horizontal section. The data obtained will be used to finalise the pilot development plan to develop the field and tie-back to the Lineynoye processing facilities. The pilot hole is currently drilling ahead at a depth of 2,500 m. The entire well will take an estimated 60 days to drill and complete. Assuming a successful result, additional horizontal and vertical wells will be drilled at Tungolskoye during 2015 and a pipeline will be constructed to the Lineynoye Central Processing Facility.

Arbuzovskoye development wells

A minimum of three additional development wells will be drilled at Arbuzovskoye Pad 1. A second drilling crew has been mobilised to the field to drill these wells and drilling of the Arbuzovskoye 106 well in the north eastern area of the field has commenced.

Sibkrayevskoye

The Sibkrayevskoye No. 373 delineation well will be drilled following completion of the Tungolskoye No. 5 well. Data from this well along with new seismic data will allow for the development of Sibkrayevskoye starting in 2016. The drilling rig for this well is on location and assembly will commence in October in preparation for drilling which is expected to commence early in 2015.

PetroNeft Resources plc

Chairman's Statement (continued)

Licence 61 Seismic

Acquisition of 1,000 line kms of high resolution 2D seismic data has been approved. This programme is designed to detail the Sibkrayevskoye oil field and large Emtorskaya High where potential by-passed oil has been identified in two wells drilled in the 1970's. It will also further detail three significant leads in the Northern portion of the Licence area. The seismic crew has already mobilised to the field for surveying and line clearing operations. The data acquisition will occur primarily in Q1 2015 with results due in late summer 2015.

Equity raise

In March 2014 the Company undertook a share issue raising approximately US\$5 million net of costs through the issue of 62,325,631 new shares. This enabled PetroNeft to purchase the materials and supplies necessary for the 2014 work programme which were mobilised to the field while winter roads were still in place.

Licence 67

In the first half of 2014 we undertook a 3D seismic programme at Licence 67 to acquire 163 km² of high quality 3D seismic data at the Ledovoye and Cheremshanskoye oil fields on Licence 67. The data is currently being processed and interpreted and we expect to have the final data package by the end of 2014. This will guide our future plans for Licence 67.

Financial results for the period

The net loss after tax for the period was US\$2,728,794 (H1 2013: US\$10,593,368). The loss includes a foreign exchange loss of US\$2,060,685 (H1 2013: US\$6,376,921) on loans denominated in US Dollars and Russian Roubles from PetroNeft to its Russian subsidiaries Stimul-T and Granite Construction whose functional currency is the Russian Rouble. In accordance with IFRS 5, there was no depreciation charge in the period relating to assets held for sale leading to a reduction of US\$2,652,966 in the total depreciation charge as compared to the same period in 2013.

PetroNeft Resources plc

Chairman's Statement (*continued*)

Conclusion

The first half of 2014 was a turning point for the Company as we agreed the farmout with Oil India Limited allowing us to clear all our debts and to re-start the development of Licence 61. Since then we have agreed a work programme on Licence 61 with our new partner and recommenced drilling. I look forward to updating shareholders on our progress in the near future.

Notes to the interim condensed consolidated financial statements

for the six months ended 30 June 2014

1. Corporate information

The interim condensed consolidated financial statements of the Group for the six months ended 30 June 2014 were authorised for issue in accordance with a resolution of the Directors on 25 September 2014.

PetroNeft Resources plc ('the Company', or together with its subsidiaries, 'the Group') is a Company incorporated in Ireland. The Company is listed on the Alternative Investment Market ('AIM') of the London Stock Exchange and the Enterprise Securities Market ('ESM') of the Irish Stock Exchange. The address of the registered office and the business address in Ireland is 20 Holles Street, Dublin 2. The Company is domiciled in the Republic of Ireland.

The principal activities of the Group are oil and gas exploration, development and production.

2. Important Events after the Balance Sheet Date

On 17 April 2014, the Company entered into a binding agreement with Oil India Limited ("OIL") to farmout a 50% non-operating interest in Licence 61. Under the terms of the Licence 61 Farmout, OIL will make a total Investment of up to US\$85 million consisting of:

- US\$35 million upfront cash payment, enabling PetroNeft to repay in full its existing debts (the Macquarie Debt Facility and the Arawak Loan) and provide cash for working capital purposes.
- US\$45 million of exploration and development expenditure on Licence 61.
- US\$5 million performance bonus, contingent upon average production from the Sibkrayevskoye Field reaching 7,500 bopd within the next five years.

The completion of the Licence 61 Farmout was conditional on shareholder approval, which was granted on 9 May 2014 and on Russian Regulatory approval which was received on 30 June 2014.

On 3 July 2014 the Licence 61 Farmout was completed and the Company repaid all of its outstanding debt to Macquarie (US\$8.4 million) and Arawak (US\$16.5 million). At the date of approval of these financial statements, the Company has no outstanding debt.

Under the terms of the agreement, OIL subscribed for shares in WorldAce Investments Limited ("WorldAce"), the holding company for Stimul-T, the entity which holds Licence 61 and all related assets and liabilities. Following this, PetroNeft and Oil India Limited both hold 50% of the voting shares, and through the joint venture agreement, both parties have joint control of WorldAce with PetroNeft continuing as operator.

As a result of the Licence 61 Farmout the Company is now debt-free as at the date of the approval of these financial statements. The Directors have a reasonable expectation that the Company, and the Group, have adequate resources to further develop its assets and to continue in operational existence for the foreseeable future. For this reason, the Directors consider it appropriate to continue to adopt the going concern basis in preparing the financial statements.

Notes to the interim condensed consolidated financial statements

for the six months ended 30 June 2014

3. Accounting policies

3.1 Basis of Preparation

The interim condensed consolidated financial statements for the six months ended 30 June 2014 have been prepared in accordance with IAS 34 *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 December 2013 which are available on the Group's website – www.petroneft.com.

The interim condensed consolidated financial statements are presented in US dollars ("US\$").

3.2 Significant Accounting Policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2013.

4. Segment information

At present the Group has one reportable operating segment, which is oil exploration and production. As a result, there are no further disclosures required in respect of the Group's reporting segment.

The risk and returns of the Group's operations are primarily determined by the nature of the activities that the Group engages in, rather than the geographical location of these operations. This is reflected by the Group's organisational structure and the Group's internal financial reporting systems.

Management monitors and evaluates the operating results for the purpose of making decisions consistently with how it determines operating profit or loss in the consolidated financial statements.

Geographical segments

All of the Group's sales are in Russia. Substantially all of the Group's capital expenditures are in Russia.

Assets are allocated based on where the assets are located:

14. Cash and Cash Equivalents and Restricted Cash Group

	<i>Unaudited</i>		<i>Audited</i>
	6 months ended 30 June 2014	6 months ended 30 June 2013	Year ended 31 December 2013
	US\$	US\$	US\$
Cash at bank and in hand	82,923	130,720	116,831
Restricted cash	4,000,000	4,000,000	2,054,947
	4,082,923	4,130,720	2,171,778

At 30 June 2014 restricted cash amounting to US\$4 million is being held in a Macquarie Debt Service Reserve Account ("DSRA"). This account is part of the security package held by Macquarie and may be offset against the loan in the event of a default on the loan or by agreement between the parties. These funds were used to part repay the Macquarie debt facility when the loan was repaid in full on 3 July 2014.

Bank deposits earn interest at floating rates based on daily deposit rates. Short-term deposits are made for varying periods of between one day and one month depending on the immediate cash requirements of the Group, and earn interest at the respective short-term deposit rates.

PetroNeft Resources plc

Contractual undiscounted liability			28,900,000	33,900,000	30,000,000

Macquarie loan facility

During the period, Macquarie agreed to extend the maturity date of their loan to 7 July 2014 in order to allow the completion of the transaction with Oil India Limited for a fee of US\$400,000. On 3 July 2014 the loan was repaid in full from the proceeds of the Oil India transaction.

Certain oil and gas properties (wells, central processing facility, pipeline) together with shares in WorldAce Investments Ltd, shares in Stimul-T, certain bank accounts and inventories were pledged as a security for the Macquarie loan facility agreement. All of this security was released once the loan was repaid.

Arawak Energy loan facility

The loan was secured on PetroNeft's 50% interest in Russian BD Holdings B.V. In July 2013, pursuant to an internal re-organisation, Arawak Energy Russia B.V. assigned the loan to its sister company Belgrave Naftogas B.V. On 3 July 2014 the loan was repaid in full from the proceeds of the Oil India transaction and the security was released.

PetroNeft Resources plc

Notes to the interim condensed consolidated financial statements

for the six months ended 30 June 2014

17. Share Capital

Allotted, called up and fully paid equity	Number of Ordinary Shares	Called up share capital US\$
At 1 January 2013	644,920,275	8,561,499
Issued in the year	-	-
At 1 January 2014	644,920,275	8,561,499
Issued in the period	62,325,631	867,683
At 30 June 2014	707,245,906	9,429,182

The Company issued 62,325,631 new shares for consideration of US\$5.18 million during the period. The net proceeds of this share issue of US\$5.02 million were used to repay debt, finance expenditure on oil and gas properties, exploration and evaluation costs and corporate overhead.

18. Related party disclosures

Transactions between PetroNeft Resources plc and its subsidiaries have been eliminated on consolidation. Details of transactions between the Group and other related parties are disclosed below.

Vakha Sobraliev, a Director of PetroNeft, is the principal of LLC Tomskburneftegaz ("TBNG") which has drilled production and exploration wells for the Group. Various contracts for drilling have been awarded to TBNG in recent years following competitive tendering processes. All drilling contracts with TBNG are "turnkey" contracts whereby TBNG assumes substantially all liabilities in relation to the health and safety, environmental and other risks associated with drilling operation. As part of this relationship PetroNeft Group companies also occasionally sell sundry goods and services to TBNG. Other companies related to TBNG also provide some services to the Group such as transportation, power management and repairs.

The following is a summary of the transactions:

	30 June 2014		31 December 2013	
	TBNG	Other companies	TBNG	Other companies
	US\$	US\$	US\$	US\$
Period ended				
Maximum value of new contracts awarded during the period	1,849,042	-	-	-
Paid during the period for drilling and related services	142,980	-	1,527,850	-
Paid during the period for other services	-	-	-	128,416
Amount due to TBNG and related companies at period-end	1,758,546	134	1,962,797	138
Received during the period for sundry goods and services	-	-	49,445	-
Amount due from TBNG and related companies at period end	6,611	3,189	6,839	3,283
